## ABOUT US

It didn't take long in the resort housekeeping industry to realize that time is of the essence. Not long after guests check out, new guests check in. To accommodate that small window of time for thoroughly cleaning your room, suite, condo, cabin, or house, your floorcare equipment must be agile, easily transported, easily operated and – at the same time – robust. That is the type of commercial floorcare equipment Hospitality Outfitters offers.

*Because clean floors really matter.*

# Floorcare Equipment Renewal Program

## EQUIPMENT MAINTENANCE CHALLENGES

- Lack of staff's **time** and **focus**
- Lack of qualified and affordable **technicians**
- Lack of budget for **unexpected expenses**

## WHAT WE OFFER

- Agile, **portable** commercial floorcare equipment
- Certified **technicians**
- Weekly **maintenance**
- Saved **time**

## TYPES OF OUR COMMERCIAL FLOORCARE EQUIPMENT

Vacuum  
Carpet Extraction  
Carpet Encapsulation  
Hard Floor Scrubber

## IF YOUR EQUIPMENT DOESN'T WORK, YOUR HOUSEKEEPING DOESN'T WORK

- Each commercial vacuum requires a minimum of 10 minutes per week for cleaning and minor repairs to keep them consistently in good working order.
- Data gathered by LinkedIn, Gallup, and others indicates that lack of proper tools and equipment is a leading factor in poor employee performance.
- Carpet that is cleaned properly every week will look newer and last longer.

**Our Floorcare Equipment Renewal Program will provide consistently reliable floorcare equipment every time.**

## HERE'S HOW IT WORKS

We customize equipment renewal programs based on your needs.

You choose your equipment program, monitoring, and cost structure.

We deliver and maintain your equipment every week.

We monitor usage of each machine and report performance.
